

NOVA.

A smarter way to work.

— Self-initiated concept project

Work shouldn't feel harder than it needs to.

01

Too many tools

Important work is scattered across different platforms.

02

Too many interruptions

Constant notifications make it difficult to focus.

03

Too much manual work

Repetitive tasks consume valuable time.

The result: attention splits, context disappears, and momentum slows down.

People don't need more tools. They need **better coordination.**

NOVA brings tasks, communication and workflows together in one focused workspace.

01

Focus

02

Connect

03

Automate

MEET NOVA

One workspace. Less friction.

NOVA combines:

Three pillars replace the patchwork of apps your team juggles every day.

Tasks

Team

Automation

Tasks

Organize priorities and deadlines.

01

Team

Communicate with the people you work with.

02

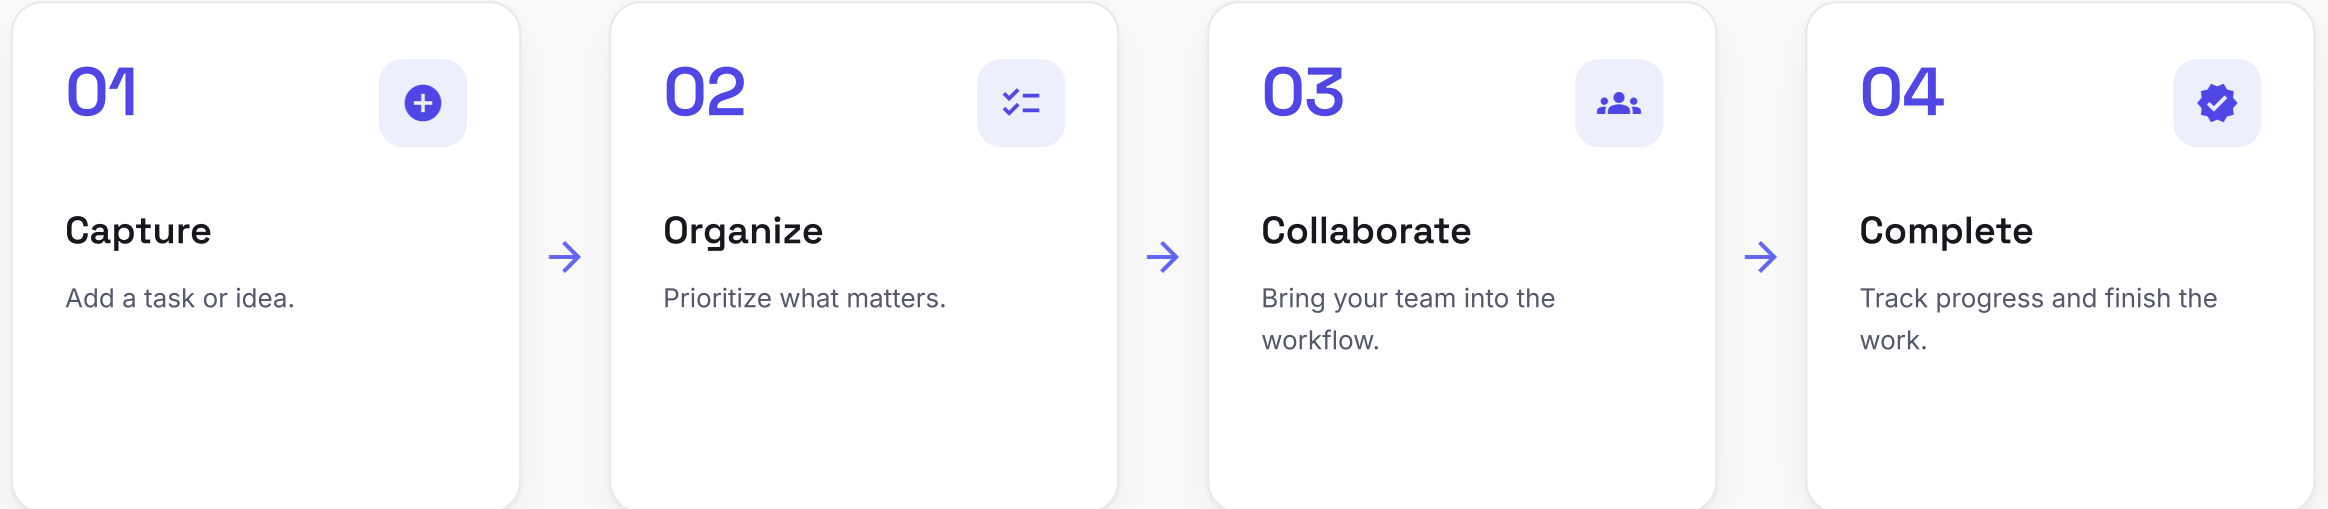

Automation

Reduce repetitive work with smart workflows.

03

From idea to done in four steps.

KEY FEATURES

Designed around the way teams actually work.

Smart task management

Priorities, deadlines and subtasks in one clear list.

Shared team workspace

One shared space for every project and conversation.

Automated workflows

Hand routine work to workflows that run themselves.

Progress dashboards

See status, progress and blockers at a glance.

Calendar integration

Deadlines synced automatically with your calendar.

Custom notifications

Get notified only when it truly matters.

THE NOVA EXPERIENCE

Less switching. More doing.

A look inside NOVA — one focused workspace where today's work is always in view. (Fictional product UI)

A better workday starts with less friction.

Traditional workflow

- × Multiple tools
- × Manual processes
- × Scattered information
- × Constant interruptions

NOVA

- ✓ One workspace
- ✓ Smart automation
- ✓ Connected work
- ✓ Focused workflow

Same amount of work — a completely different feel.

What changes when work becomes simpler?

01

More focus

Spend more time on meaningful work.

02

Better collaboration

Everyone sees what matters.

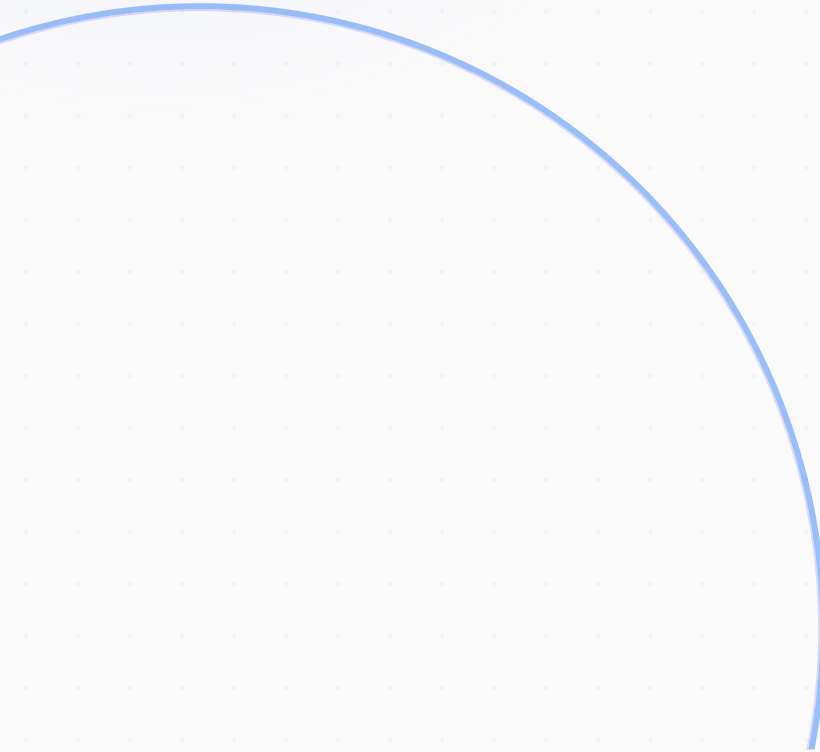

03

Faster execution

Less time managing work, more time doing it.

Less friction compounds — focus, alignment and speed reinforce each other.

Work smarter. Move faster.

N O V A

A smarter way to work.
